

# PanOptic Capture Series for Interwoven

The PanOptic Capture Series for Interwoven adds the possibility for paper document capture where it was never a fully-integrated option. The capture, index and view modules are self-installable, and flexible. Files are readable in TIFF or PDF file formats, and allow Optical Character Recognition (OCR) for full content search.

**Consider your problems with paper documents:**

- Time & labor required to respond to information requests
- Expensive, inaccessible storage for multiple document sizes and types
- The cumulative impact of your office's budget, productivity, and quality of customer service
- Difficult to control access
- Lost, misfiled, and damaged
- Overwhelming, expensive, paper traffic
- No Disaster Recovery Plan

**Overview**

The PanOptic Capture Series for Interwoven products are the first fully scalable Interwoven capture tools in the Legal market.

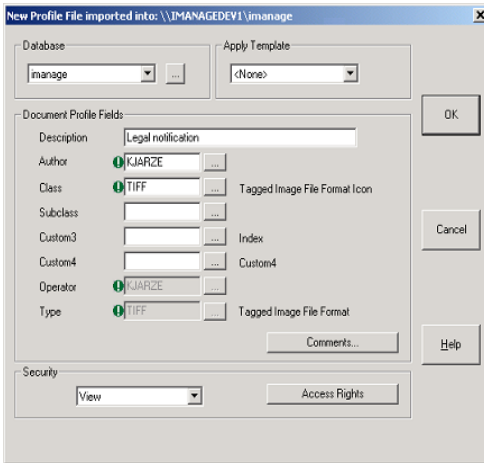

Law Firms and other organizations are dealing with a flood of incoming information, and still much of it in paper form. The increasing need exists for a flexible solution that captures a high volume of content in order to increase document integrity, reduce costs, and improve efficiency. The PanOptic products incorporate enterprise production-level scanning with a powerful yet flexible architecture to fit your document scanning needs. **PanOptic Capture** and **PanOptic Access** enhance your existing investment in Interwoven to increase productivity.

PanOptic is creating better business solutions for Interwoven users in any vertical market including: legal, corporate legal, financial services, insurance, manufacturing, and government. The capture, index and access modules provide on-going benefits through flexibility and openness.

# Core Functionality

The **PanOptic Capture Series for Interwoven** solution consists of two major functional layers that leverage core Interwoven technologies and provide a multitude of organizational benefits:

- **Simple image capture** through the use of batch processing which includes manual, separator pages or fixed page tear-off. Images are indexed through the same Interwoven profile cards that are manipulated by end-users today.

- **Full-text OCR to WorkSite.** OCR documents and save into the Interwoven system for full content searching and viewing in TIFF or PDF file formats.

**PanOptic Capture ensures the reliable acquisition of images into the WorkSite back-end repository.** Product highlights include the following:

- 3 types of **batch processing**
- Support for most **multi-function copiers**
- Utilizes **WorkSite profile card** for indexing
- Commit image as **PDF**
- 2 tab design including PanOptic generated batches and External or Directory Batches to receive images from **fax systems, or multi-function units**
- 2 step secured deletion process
- **Full-text OCR** for TIFF or PDF file formats

# Compatible Products & Platforms

## Works With:

- *Interwoven DeskSite 6.0 or 6.5*
- *Interwoven WorkSite Server 7.2, 7.5, & 8.0*

## Client Requirements:

### Hardware

- *Intel Pentium 266 MHz*
- *100 MB disk space*
- *256 MB RAM*

### Software

- *Microsoft Windows 2000*
- *Microsoft XP Professional*
- *Windows NT 4.0 with SP6a*

## Server Requirements:

### Hardware Requirements

- *Intel Pentium 300 MHz*  
*or higher*
- *256 MB Ram*
- *4 GB disk space*

### Software Requirements

- *Microsoft Windows 2000 SP3 or higher*
- *Microsoft Windows NT 4.0 SP6a*

### Databases

- *Microsoft SQL Server 2000 SP3a*
- *Microsoft SQL Server 7.0 SP4*

### Scanner

- *ISIS driver support -OR-*
- *TWAIN driver support*
